Hiring Manager  
Hiring Company  
Woodstock Quarter, 187 Sir Lowry Rd, Cape Town  
Cape Town, 7925

Dear Hiring Manager,

After years of pursuing the IT industry, I've finally found a place where I'd like to contribute my knowledge. I can put my application development skills and work to good use. I am confident that I will be able to not only contribute to but also grow with the company.

I admit that I do not possess every skill available; there are flaws that must be addressed, as well as boundaries that must be overcome. But I'm confident that by working for you, I'll be able to resolve this. If the company is looking for work experience, a desire to learn and improve on a foundation I've already laid, and familiarity with cutting-edge technology, I'm the ideal candidate for the position.

If so, then you need look no further. You will see from my enclosed CV that I meet all of these qualifications and more.

I would very much like to discuss opportunities with the company.

To schedule an interview, please call me on 074 892 4266. The best time to reach me is between 2pm and 5pm, but you can leave a voice message at any time, and I will return your call.

Thank you for taking the time to look over my resume. I'm looking forward to speaking with you.

Yours sincerely,  
Aqeel Hanslo

Ahanslo

## APPLICATION DEVELOPER

### IDENTIFICATION

 074 892 4266  
 aqeel\_hanslo  
 2193722@mycput.ac.za  
 332 Klip Rd Lotus River

### CAREER OBJECTIVE

To put my skills and knowledge to use in the IT industry, where I can apply everything, I've learned during my studies. My goal in choosing this career path is to not only use the skills I've acquired, but also to improve them and integrate them into providing a good service to clients and my employer. Being an application developer is not easy; I know I'll have to spend sleepless nights troubleshooting various issues, but I know what I'm getting myself into. And that is to help my team.

### SKILLS

- CREATIVITY
- FLEXIBILITY
- TEAMWORK
- ORGANIZATION SKILLS
- RESPONSIBILITY
- DIGITAL SKILLS
- PROGRAMMING SKILLS

### WORK EXPERIENCE

#### Body

During my gap year in 2019, I worked under a chartered accountant, which may not be relevant to the career I am pursuing, but I gained the necessary work experience in every area. Communication, flexibility, teamwork, and critical thinking are examples of such skills. I've also improved my organizational skills to ensure that the work I pass on to the next person on the team is accurate.

I was also the youngest employee, so I was under a lot of pressure to keep up with what was expected of me. I took part in the business minutes once a week, discussing the current state of affairs and plans for the coming weeks. Overall, I have a decent amount of work experience. Because I am not a qualified accountant, my exact position for the job was a CA's assistant. I had a fair amount of knowledge acquired through personal study and school. I'd enter data into various software, receive money through payments, and call clients about outstanding balances. I would also have to make certain that the purchases I made were correct, because if I was incorrect, it would result in data anomalies for the next person. My ability to do this correctly resulted in an improvement in my technical skills, responsibility, digital, and communication abilities.

During my first and second year doing ICT course, I have participated in many projects that involved database design and java swing applications.

### EDUCATION

**Highschool Name:** The Oracle Academy  
**Qualification:** Bachelor's Degree Pass  
**What I learned:** I discovered my strengths and weaknesses.

**University Name:** College of Cape Town  
**Qualification:** Higher Certificate  
**What I learned:** I acquired the necessary skill sets for my field of study and was able to choose which career path within the IT field to pursue.

**University Name:** CPUT  
**Qualification:** Diploma of ICT App development NQF Level 5, 6, 7  
**What I learned:** I'm learning how to fully apply my abilities in big built systems. And how it will benefit the client who employs the system.

### Conclusion

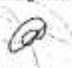

Finally, I hope to hear from you soon. An interview will be greatly appreciated, preferably in the middle of the week at midday, when it is most convenient for everyone. With everything I've learned, I'll be able to make a significant contribution.
